

ENTERPRISE ONE CONSULTING SERVICES

Press Release Dated : 21st Jan 2010

Enterprise One Consulting Services (India) Private Limited Earns CMMI Level 3 Certification

Enterprise One Consulting is proud to announce that it has received a Capability Maturity Model Integration (CMMI[®]) Maturity Level 3 rating for the Software Engineering Institute's (SEI) CMMI[®] for Development.

CMMI[®] is a comprehensive method of process improvement that addresses the development and maintenance of products and services through their entire life cycle. The prestigious CMMI[®] Maturity Level 3 (ML3) rating proves that the company is a process oriented company and provides services which meet the expectations of its clients in a consistent manner.

"It is a remarkable accomplishment for a company which is just 1.5 years old to achieve CMMI[®] Maturity Level 3," said Enterprise One Consulting President Ram Rishi. "The considerable efforts of the team and their conviction in implementing the processes have made us into a process-driven company".

"It is very rare that a small company aspires for and achieves the coveted rating. This would also help us in bidding against other businesses of bigger size."

Enterprise One Consulting Services' accomplishment was announced by the SEI following a formal "Class A" Standard CMMI[®] Appraisal Method for Process Improvement (SCAMPISM) appraisal was conducted in December 2009 by certified SEI Lead Appraiser Mr. Hitesh Sanghavi. The SEI, a part of Carnegie Mellon University, is a federally-funded research and development center sponsored by the U.S. Department of Defense.

Enterprise One Consulting is a business consulting and information technology service provider focused on business process optimization and implementation of integrated business systems. It assists the clients in SAP development/deployment activities, testing the system, rolling it out to production and maintaining the system in an efficient manner. Enterprise One Consulting provides support to its clients in the niche areas in SAP domain comprising of SAP Financials, Business Intelligence, Enterprise Performance Management and Testing integrating Solution Manager and HP's Quality Center.

ENTERPRISE ONE CONSULTING SERVICES

Enterprise One Consulting's SCAMPISM appraisal involved the company's SAP Software Development, Tools Development, and business support functions. The appraisal covered 100% of projects and 88% of employees. Large number of artifacts, including plans, policies, procedures, and other technical documentation, were reviewed by the appraisal team.
